Increasing the Availability of Locally Grown Food – help make that happen

How can you support local communities to bring about change?

How can you do this in your community?

Start with what's there and be creative!

Explanation:

The created worksheet follows the training section and is designed to help participants delve deeper into the topic. By filling out the form, participants individually develop the scheme "Increasing the Availability of Locally Grown Food" according to the conditions in their local environment. That will improve their understanding of how they can put into practice and contribute to Increasing the Availability of Locally Grown Food.

Short instructions for filling in:

- In what geographic area will you focus your efforts?

1. Generate Awareness and Demand
2. Increase the Capacity of Local Farm
3. Expand the Availability of Local Food
4. Local Food Campaign Initiatives
5. Planned activities – describe the activities you would undertake and how to organise them.
6. Expected results and impact – state what you expect to achieve and desired impact on your farm, local people and the community.

Recommendation for group work: let learners work in small groups so that all of them are from the same local community.

After filling out the form "Increasing the Availability of Locally Grown Food", it is desirable that participants demonstrate their scheme to the entire group.

Discussion topic: Encourage participants to comment and develop discussion in terms of presented schemas.

A step forward

Brainstorming

SPARK: a rush of ideas on how to organize exhibitions, conducting "Spring and Autumn Festival" with various workshops, cultural events and promotions of local producers (eating local food)
